

INGREDIA APP STORE METADATA DRAFT

Last updated: August 28, 2026

APP NAME

Ingredia

SUBTITLE

Allergy-aware food barcode scanner

PROMOTIONAL TEXT

Scan packaged food, compare it against your allergy profile, and review better alternatives when available. Always verify the packaging and the manufacturer's latest information.

KEYWORDS

allergy,allergen,food scanner,barcode,ingredients,intolerance,restaurant card,product checker

SHORT POSITIONING

Ingredia helps users review packaged food products against a personal allergy or intolerance profile. The app scans a barcode, fetches available product data, explains possible conflicts, and may suggest better alternatives in the same category.

FULL DESCRIPTION

Ingredia helps you review packaged food products against your personal allergy or intolerance profile.

Scan a barcode, fetch product information, compare it with your active profile, and get a clearer view of what needs extra attention. When relevant data is available, Ingredia can also suggest better alternatives from the same or a similar category.

Ingredia is designed to help users find important product information faster, while keeping the language conservative. The app does not guarantee that a product is safe. Always verify the packaging, ingredient list, allergen labeling, trace warnings, and the manufacturer's latest information.

CORE FEATURES

- â€¢ Barcode scanning for packaged food products
- â€¢ Personal allergy and intolerance profiles
- â€¢ Support for cross-contamination preference
- â€¢ Product assessment with clear status labels
- â€¢ Explanation of detected conflicts
- â€¢ Product data confidence indicator
- â€¢ Better alternative suggestions when available
- â€¢ Local scan history
- â€¢ Restaurant allergy card
- â€¢ In-app help

CURRENT LANGUAGE SUPPORT

- â€¢ Norwegian
- â€¢ English
- â€¢ Thai

IMPORTANT LIMITATIONS

- â€¢ Product information depends on external database coverage
- â€¢ Some products may be missing, incomplete, outdated, or incorrect
- â€¢ International coverage varies by market
- â€¢ Fresh product lookups and alternative search require internet access

SAFETY NOTICE

Ingredia is a decision-support tool only. It is not a substitute for food packaging, manufacturer information, or professional medical advice.

CATEGORY SUGGESTIONS

- â€¢ Primary: 'Food & Drink'
- â€¢ Secondary: 'Medical'

AGE RATING NOTES

Likely low age rating, assuming no user-generated public sharing, advertising, or unrestricted web content is added before release.

PRIVACY NUTRITION LABEL DRAFT NOTES

Based on the current implementation:

- â€¢ Camera access: yes
- â€¢ Contact info collection: no in-app collection currently

â€¢ Health data: not collected as Apple Health data, but the app does store allergy preferences locally

â€¢ Tracking: no

â€¢ Third-party advertising: no

â€¢ Analytics SDKs: none currently

This still needs final review in App Store Connect before submission.
